

Predictability increase with age

Term

sodium ion transport
ribose phosphate biosynthetic process
myeloid leukocyte differentiation
regulation of membrane potential

0.0 0.2 0.4 0.6

log2Enrichment

Predictability decrease with age

Term

double-strand break repair via homologous recombination
DNA-dependent DNA replication
nuclear chromosome segregation
negative regulation of mitotic cell cycle phase transition
DNA duplex unwinding
hematopoietic progenitor cell differentiation
chromatin remodeling
regulation of mitotic nuclear division
DNA integrity checkpoint

0.0 0.2 0.4 0.6
